We the undersigned , presently citizens of
Born of Jewish religion in Egypt, or descendants of Jewish parents born in Egypt and having lived there, concerned about the likely disappearance of the Jewish Community in Egypt to which we and/or our parents belonged, **call upon our Government and the Egyptian Government to recognise and act favourably on the justice of our demands.**

The registers in the custody of the Jewish Communities in Egypt constitute an essential proof of our religious identity and that of our children now living out of Egypt. They are no longer under a religious authority which can confer legitimacy. Some of the Torah scrolls in Egypt do not fall under the Egyptian law on Antiquities. They no longer serve their purpose and are part of our religious heritage.

We therefore wholeheartedly support the objectives and actions of the Association Internationale Nebi Daniel and request that at least a copy of the registers be entrusted to a recognised rabbinical authority out of Egypt. We request that the Torah scrolls that fall outside the Egyptian law on Antiquities be placed under joint control of our religious authorities and of the Egyptian government in various synagogues around the world.
